

Formulary Workgroup Minutes
OEMS
1001 Technology Park Drive
Glen Allen
August 17, 2010
10:30 am

Members Present:	Members Absent:	Staff:	Others:
George Lindbeck, M.D. Matt Lawler	Linda Johnson Barbara Brown Caroline Juran David Coulling Kate Passow David Hoback Scott Weir, M.D.	Tom Nevetral	

Topic/Subject	Discussion	Recommendations, Action/Follow-up; Responsible Person
I. Welcome	The meeting was called to order at 10:35 AM by George Lindbeck, M.D.	
II. Introductions		
III. Approval of Minutes	The minutes from the June 22, 2010 were reviewed.	
IV. Tasks to be Completed	<p>George Lindbeck, M.D. identified four tasks for the workgroup to continue work on as follows:</p> <p><u>TASK ONE</u> – Merge the two lists of common drugs under their appropriate drug classification as listed in the Virginia Scope of Practice.</p> <p><u>TASK TWO</u> – Determine what formulary data can be obtained from the PPCR and what data can be obtained from the new ePPCR.</p>	<p>Completed (see June 22, 2010 Minutes).</p> <p>The old PPCR database did not capture individual medications. It only captured that the procedure medication administration was performed. Therefore, it could only determine the number of responses, the type of medication</p>

Topic/Subject	Discussion	Recommendations, Action/Follow-up; Responsible Person
	<p><u>TASK THREE</u> – Survey EMS councils and the larger municipalities who track their drug administration. This request will be made through VAGEMSA.</p> <p><u>TASK FOUR</u> – Get with the Virginia Board of Pharmacy and the Drug Enforcement Agency to compile a document containing pertinent EMS drug policies as a resource.</p> <p>It was determined that the workgroup had completed the tasks required of them and any further information gathered would be sent out to the group for review, and the workgroup could be re-convened as needed.</p>	<p>administered by suspected diagnosis, agency, and route.</p> <p>The new dataset includes the medication name, dosage, route of administration, provider who gave it, time it was given, response to medication, and complications. So we have significantly more ability to look at this in the future.</p> <p>Completed (see June 22, 2010 Minutes).</p> <p>George Lindbeck, M.D. is compiling this document along with Michael Berg and the State Board of Pharmacy.</p>
VIII. Public Comment	None	
IX. For the Good of the Order	Meeting dates: None scheduled	
XIV. Adjourn	Motion to adjourn.
